

Automatic Tubular Tape Feeding Attachment

For all standard machines in the automotive industry

- Mounting adapts easily to all standard industrial sewing machines
- 4 screws in front of the machine into the tabletop
- SPS Control unit compatible with all current electronic sewing motors
- Installation with connector
- Pneumatic tape cutter
- Tape width 10-38 mm
- Tape brake is controlled electro pneumatically

Tape is applied with uniform tension along seam and is cut at the push of a button or footswitch.
