Walker Tape Feeder

The Walker Tape Feeder is a dispensing device for all types of zipper chain, lace, elastic or other trims.

The tape feeder unit keeps slack in trim and delivers it to the sewing machine in a relaxed condition. This eliminates inconsistent measurements for garments with elastic and increases production because there is no wasted trim or time. Can be mounted above or below the tabletop.

- All industrial sewing machines

WW2210 - 110v

Aluminum, steel, rubber, or zipper-grooved rollers

SPECIFICATIONS

Voltage (v/ph/hz)	110 or 220v 1ph
